Objective

A highly skilled and innovative Frontend Developer with a passion for leveraging the latest technologies to create exceptional user experiences. Committed to continuous learning and staying updated with industry trends, aiming to contribute cutting-edge solutions in a dynamic and forward-thinking development environment. Seeking a challenging role where expertise in modern frontend frameworks and dedication to excellence can drive impactful results and elevate the overall quality of web applications.

Experience

ZainCash | Software Developer   **2024 October - Present**

At ZainCash, I work as a Frontend Developer, focusing on creating modern, responsive, and accessible user interfaces using Vue.js, Nuxt, and Tailwind CSS . I've also gained experience working with PHP and Laravel, enabling me to make minor backend modifications and gain a deeper understanding of full-stack workflows.

Tatweer ICT | Frontend Developer   **2023 December - 2024 October**

As a Frontend Engineer at Tatweer, I specialized in creating dynamic and responsive user interfaces using modern frameworks and libraries. My expertise includes working with Vue.js and Nuxt.js to build performant and scalable web applications. I also have a strong command of Tailwind CSS and Vuetify, which I use to implement elegant and user-friendly designs. With a focus on up-to-date technologies and best practices, I strive to deliver high-quality code and seamless user experiences.

Digital Logic | Intern / Frontend Developer   **May 2023 - December 2023**

I started as an intern at Digital Logic for two months, where I learned and trained in frontend development using Vue.js and Vuetify CSS. After completing the internship, I was promoted to a full-time Frontend Developer position. During my time working:

- I developed interactive and responsive user interfaces using the latest technologies.
- I provided innovative software solutions to improve the user experience.
- I contributed to improving application performance and maintaining code to meet industry best practices.

Education

University Of Technology, Computer Science   **Graduation Date: 2024**

Computiq, Full-Stack App Development   **Graduation Date: 2022**
